

## Chesterfield Petanque Club

### Covid19 Guidelines

1. To meet with the Social Distancing the terrain will be available for Club Sessions with a maximum of 12 players only. Three X doubles. (Four players only in any one game). Should more than twelve players arrive then the excess must sit out and wait for a game at a later time.
2. In all cases members should only use/touch their own equipment, including jacks, tapes and scorers and these should be disinfected before and after each session. Rings must not be used unless ONE person only touches or carries the ring to each end. Do not pick up anyone else's boule or equipment.
3. New sessions have been introduced to accommodate all our members so everyone can have a game – be it Social or Competitive Players. Please see the list of timings on the Notice Board.
4. Social distancing MUST be maintained at all times during play. (2 metre distance) Please wait in turn to collect your boule from the head after each end.
5. Club equipment should not be used except by ONE person only to rake the piste. After use the rake must be disinfected and stored away.
6. Where possible members should use their own sanitiser before and after each session. However, a Club Sanitiser is also available.
7. Members should follow Current Government advice especially if you have any underlying conditions, are in the vulnerable category or have been advised to self-isolate.
8. **Track and Trace must be adhered to by completing a list of all members attending each session.**
