

## **Chesterfield Petanque Club**

With reference to the recent NEW list of timings on the notice board.

Just to clarify, CPC Members can play at ANY of the sessions listed

BUT

We ask that each member respects the Social or Competitive players.

e.g. Should a competitive player (say Brian and Margaret) join in a game in a Social session then we should respect that we play to the “relaxed rules” of that session and we mix with all the players by throwing the boule into the mix to find a partner.

As long as “relaxed rules” does not become a Health and Safety issue or a Covid violation.

Should a Social member wish to join in on a Competitive Session then that member should respect that they will play to Petanque England rules only. Most competitive players would want to play with their team members for practice.

At the end of the day we all play Petanque for the love of the game be it at a Social Level or Competitive Level. Enjoy!

Brian & Margaret
